

## BA-ECON Degree Planning

Please use this as more of a checklist. You do not have to do the General Education (GenEd courses are determined by your catalog year) or electives in this exact order. Some Upper Division ECON courses have Pre-Requisites that you can look for in the catalog if you need to deviate from this plan. Every student is different and encounters different challenges, thus we will tailor this plan to your circumstances. ECON students are required to have a Declared Minor (or 2<sup>nd</sup> Major); depending on your choice of minor/2<sup>nd</sup> major, the associated requirements will vary from this list. ECON students need to complete the Calculus pathway for Math sequencing. Please check with your advisor about placements, transfer work, degree components for minors/2<sup>nd</sup> majors, and upper division elective hours. Each degree will need to acquire 120 hours total with 48 upper division hours (300-400-level courses).
